

HONGGANG CUTTING MACHINE CO.,LTD

Foshan, Guangdong, China

Introduction

- Honggang cutting machine Co., Ltd., established in 2003 in Guangdong, China, is a leading enterprise specializing in manufacturing hydraulic cutting machine, leather embossing machine, belt embossing machine and flash cut, and integrating scientific research, design, manufacture, trade and service. Until today, we have had business relationships all countries, and agents in Australia, Germany, Thailand.
- Honggang is the first enterprise applying German balance connecting rod structure to cutting machine. Furthermore, in terms of automatic machines, we adopted parts of Japanese Mitsubishi and Omron and Taiwan's JeouGang. So, with 25-year experience, Honggang always produces world-class machines.
- Even so, Honggang steps forward ceaselessly for superior products and services.
- In 2005, we developed belt embossing machine, filling the blank in the field of domestic belt equipment. It offsets the deficiency of old roller embossing machine, and enhances its safety and embossing effect.
- In 2008, a new factory covering 20000 square meters was rebuilt in Nanhai, from which it only needs 40-minute drive to Baiyun Airport in Guangzhou. Therefore, Honggang can provide perfect products as well as services.
- Moreover, in 2013, we developed another advanced machine, oscillating knife cutting table, following flash cut. Compare with other cutting machines, it has higher speed and is more precise for its full automatic system. In addition, it is widely suitable for leather goods, gaskets, garment etc.

Industries

- Automatic interiors
- Packaging (blister, EPE foam, pulp)
- Abrasive tools
- Leather goods
- Cleaning/Beauty
- Soft Toys/Garments

Main Products

- Automatic double side hydraulic precision die cutting press

Full automatic roller feeding type

*All can AS Request.

Main Products

- manual precision hydraulic die cutting press

Fixed head

Travel head

Receding head

Main Products

- Hydraulic Leather embossing press

Main Products

- Flashcut
